School of Computer Science and Engineering

LAB – 2: Exercise

Course Code	:	CSE3041 – Programming for Data Science (MIA)	Date	:	16/07/2020
Lab Experiment	:	Practical Exercise on Data types, Operators and Expressions	Slots	:	L49+L50+L51 L58+L59+L60 L61+L62+L63
Instructors	:	Prof. Ramesh Ragala			

Objective: To understand the essence of Data Types, Operators and Expressions in Python

1. Practice Examples given the material.
2. Practice the examples shared in the jupyter notebook file
3. Solve the problem given at the end in the jupyter notebook
